Note

1. Circumstantial Facts: from late Sept - 27 Nov the case was handled as a matter of ordinary business in both Mexi and in Hys. Handling was by the book, keeping in mind (a) Mexico Station had a large ongoing case load, and (b) LHD (presidentially as well) was reported (18<sup>th</sup> Oct) to Hys, and disseminated (10<sup>th</sup>) was no news, and (c) case was in the jurisdictional area of Mexi. (d) <sup>(in 1944 most of what was available for identification was given to Mexico Station)</sup> Vicar's conclusions prepared by Mexico were not available for reference to LHD. Criticisms can be sustained against Mexico Station and Hys, concerning handling between 27 Sept and 22 Nov:

(1) Mexico Station sought at forward, "LC identification Bn 5 P." based on Victim's description of the man seen in the vicinity of the victim's home on 16 Nov.

discrepancy in evidence  
V. USIA Comt. SA said: "On 16 November there was a man seen in the vicinity of the victim's home, by Victim's son, who was in the house.

1. tea tray... reason to believe he  
had or could not have been used on 16 Nov.

(2) Hys. disseminated the Victim's tip of the 8<sup>th</sup> on the 10<sup>th</sup> identifying the analysis, info based on the photograph of unidentified individual.

(3) In its reply to Mexi on 11<sup>th</sup>, however Hys. gave Mexi a correct description of Henry G which was at close variance with the description of the unidentified individual and should have been sufficient, internally, to break any evidential connection between the two facts.

(4) Mexico Station though asked by Hys. did not press or secure an identification, or follow up on LHD before the end of Nov. (i.e. locate colors he had stated, what he had done, when he had arrived or when he had left. NB: neither did

the illegal acts under or the illegal representation or the  
Embassy (which was informed by the 1<sup>st</sup> FBI).

- (4) Though requested by Major Station Hq. asked the Navy  
for a photo C4D, but did not persist and acquire  
a photo before the return.
- (5) Major Station did not match the 1<sup>st</sup> main intercept  
with its earlier intercept (of 2<sup>nd</sup> and 4<sup>th</sup> Sept) until  
after the 22<sup>nd</sup> Nov. event, when it did so with  
certainty.
- (6) Major Station did not match its 1<sup>st</sup> coverage  
of the unidentified individual with its coverage  
of the same individual as of Oct. 15 in front of the  
Soviet Embassy, and as 15 Oct. in front of the Cuban  
Embassy until after 22 Nov.  
<sup>123</sup>
- (7) Despite the discrepancies in descriptions Major Station  
put the 1<sup>st</sup> photos into the chain of evidence on  
22 Nov. 2222 hours. Ultimately the liaison having  
been made by the Ambassador and the Division  
Chief, <sup>(transferred)</sup> being faced with a fait accompli.  
(transferred)
- (8) No photo coverage was obtained at any time of C4D's  
major acts. The introd. of the unidentified individual  
in good faith by COB - was misleading and  
compromised the operations in the long run,  
though every effort was made to satisfy the require-  
ments of the Commission and the security of the  
operations.
- (9) Two members of Cuban leg. known to have dealt with C4D:  
Silvia Damon and Comand Aguirre. latter left - explained  
as #19 Nov. 1953. <sup>transferred</sup>
3. The threat of Hq. retaliation after the 22<sup>nd</sup> event was against  
the USSR agents. rather than the Cubans. coverage very  
early however, turned up at least one unimpeachable  
witness:
- (a) The liaison Cuban. Conversations - afternoon  
of the 22<sup>nd</sup> which may not have gone to the  
Commission formally? - did not be checked

and (b) the <sup>two</sup> Brothers-Parmo Kennedy telephone calls on the — and — ,  
and (c) ambiguous response by Yugoslav ambassador  
Vlahov -

4. Major concern after ~~was~~ based on technical coverage and  
the utilization of liaison. The two significant challenges are:

(a) Were the Soviets & Cubans aware of the  
coverage visual & audio before 22<sup>nd</sup>?

(b) Did Soviets and/or Cubans have penetrations in  
the government which would have per-  
mitted them to blunt the threat of the  
top succession of major leak which  
were investigated tending to show a  
higher degree of contact between US  
than the substantive detail of the intercept?  
viz:

(1) Casa de Gobernación Alvarado Uzcátegui - Vice-  
minister walking to 26 Nov. investigation  
prioritized through Sec.

(2) Restrictions of the amount of detail  
given by Silvia Duran. (Can her lots  
in day 1967 → statements to confid. sources be  
trusted? If so then is also reason  
to review the Cuban Comintel's  
details - ) Duran was not subjected  
to a thorough eliciting examination  
based on what we know or could  
surmise from its intercepts.

(3) Gloria Rojas Villanueva cover  
(in Gobernación & Comintel). This  
expenses to iron were submitted. 3

(8) Case of Cleon Barnes de l'Org. In the memorandum report of State Dept. officer, Thomas. This case suggests the possibility that Cuban sources in  
Cuba themselves were in a position to manipulate and circumscribe the Silver Legion and acting  
heads opposing themselves, including the Alvarez  
brothers: note the extraordinary point that two alleged  
have as common - the presence of a red headed  
nigro. (According to Alvarez is the Cuban  
command, according to Cleon Barnes, in adher-  
dance at Cuban Alvarez's party)

(9) Observations by Eliot Cutbush to Hazel (Betty) Story  
into lead (accompanied), Theodore Kee in his  
Cuban trip for FPFU org. Manila - 21 June 1943  
Kee's relationship to FPFU activity is totally under-  
lined and unambiguously on its face unless it  
can be assumed that FPFU and Cuban Alvarez  
brothers were more aware of what he was doing  
than they have acknowledged.

(10) Case of Texas Constitution. To Gen. James Long  
beginning in May 1943 relative to his alleged  
contact with pro Castro Student groups at U.S.  
Navy in an attempt to secure their support  
for visa committee.

#### ④ Party Unknown

S. acknowledging falsehood aspect of 1st, which  
Kee's letter indicates. 1

(1) He denied he had made ~~any~~ <sup>any</sup> contact  
with the Cuban student group of  
& he was then & still long, specifically & it has been  
by well informed, whom I met there on 8/1/43  
know of your claim and it goes without  
saying that there is no such case and when

17  
lets 87 hours.

Can it be concluded that if he had contact with either Soviets or Cubans or both, that went beyond the transit-visa aspect one into that he was told to assassinate Pres. Kennedy? or anything of that kind? (Consider in this context his subsequent letters to USSR Emb. Virologists after return from Mexico.). Operationally it makes more sense to conclude that his intentions were in an electoral, developmental stage ~~way~~ that his effort to subvert was bona fide. (Note the symbolic identity between his suicide attempt in Moscow in 1959, which tipped the balance in his favor of remaining in the USSR, and the assassination as his ultimate self-promotion (and self-determined) "donation".)

N.B.: this allows for LHD having said nothing  
that was self-consciously in his dealing with  
Soviets and Cubans, including threats  
against the likes of prominent anti-Soviets  
and anti-Castroites which he neither  
the Soviets nor Cuban can admit after  
the event of 22 Nov, they knew.

6. What is the prosecuting value - without greatest collateral relating to Bogotis and Dallas meet - of Corks' statement as reported by AP, on 2 Sept 1963 at Brasiliaan bombing meeting? Note that UPI version and largest element of the AP statement is instant factual collateral its prosecutive value is only as a conditioning factor, which could have operated principally on a longitudinal admissions like LHD. Therefore Corks cannot prove a significant direct and weight per se but it casts a shadow of its value and begins to provide a platform against.

tion, his alibi and FBI is dead. We were witness  
an act of assassination where it may have been a  
conditioned response by a psychotic assassin, for  
"justifiable homicide". Or worse, he goes now conduct  
an investigation in such a way as to suggest that  
the assassination was indeed a justified homicide again,  
in the absence of factual evidence that goes beyond  
what we know, namely that not even the wife  
of JFK and Officer Tippett said that he did it alone.

Ask the same question of the Soviets' abomination<sup>5</sup> to  
his South African Ambassador: what specific identifiable  
can be attached to what he said? (Identified the  
rewards given mentioned people, incident.)

In further of lack of supporting evidence I stated  
also recognising that there were two separate sources  
unless come out immediately after the assassin, one  
Soviet (Khrushchev) and the other Cuban (whom via  
means of ongoing congressional investigation, took  
both Soviets and Cubans with guns to cover of various  
off the books

(NB: As I put for a long time and repeat the cold hearing  
does not help, rather to remain here & do not let that  
FBI read the written by present year, 1960.)

There is every reason to be unhappy with the work of the  
mainly men in my opinion, but it is no benefit to  
to shift blame on FBI for allegedly not knowing what the  
intelligence who were doing, among they were. I do know  
I know the policy was to deal with the thing in  
but not to encourage it to become public, instead  
with the male factor, flattening it. By not recognising that the  
team is the communists, leadership a lot of a lot more  
likely against it and a liaison with the Soviets is definitely  
not likely to be continuing. What was to a lot more  
to communists the right of the always existing

(Note that I have specifically connoted the word "any" for  
joining by his reporting, distinguished by, initials, agents,  
& foreign involvement.)

In fact at the working level in CIO - and at the FBI;  
position was or is not known to me - it may well be that  
the report did not could have left a danger opening  
for further accumulation of evidence leading to  
the foreign conspiracy aspect ~~of the~~ the Miller was  
or advised by CIO Staff at the time. In any  
case this is a matter of measure or slanting and  
unless we are talking here of degrees of wrongdoing  
because the Report properly read does leave  
the question of ultimate responsibility of lot or  
a single Miller open.

What did the Commission Staff fail to formulate  
the actions necessary to cover all aspects of the case and  
to get them investigated - in this instance by the FBI?

contested his repeated claims, offered to have  
settled his account for myself, and requested to  
give him money. This corporation did stay when  
Bengali government was publishing assets, receiving a  
sum, bearing name of Nizam Ali Ismail of FFC.  
On 12<sup>th</sup> June 1983 there was a municipal court action  
for which BB pleaded guilty against BB. On 14<sup>th</sup>  
July 1983, going out from Dacca in same manner, Bengali  
paid a sum of 1000 taka on 16<sup>th</sup>, on 21 Aug. there  
was a bank statement, in the account of BB  
(I. batli) of bank issued by the American.  
(no right available to disclose testimony)

BB It is remarkable that person apparently involved  
in the BB's corruption can't be identified

(3) what does one people of the audience testimony,  
"I think [Name], wants to do good, better  
money"

(4) what are the considerations of BB delayed his late  
activities in BB on behalf of the FFC? Can  
one except the idea he had new guidelines or  
constraints. after he had begun to write & later  
delays to file com. by last stages of BB Tax com?  
What does a chronic account of his career  
act. & movement look like starting with the  
list of picked question dates?

(5) Report does not note the AP report by Harker on  
9 Sept 1983 - nor was testimony taken on this  
point of through the session that opened in  
Tour license must have been seen by him.  
It reflects main line however, pp. 412 ff.

13. Report does not consider Overall's sequence of activity as an <sup>possibly</sup> operational continuum in which both and Cuban more involved in their secret service than they can afford to admit. The Commission report should have left <sup>a wider</sup> open on this aspect because:

- ① This was very reasonable argument and some fact to conclude Swanson, agent and handling of LHO ("Red Cross") in the Sov. Union and his Cuban interest, included. Our unresolved contact (Belgian testimony) which went back to El Tico, and if there was any conflict, Morales's testimony in this file is conclusive.
- ② The material furnished by the USIS and Cuban (via Sovets) fail for want of anything that fact and reasonable inference suggested.

(This is not to say LHO was under instruction or not.)

14. In addition to the highest plausible knowledge - Swanson suggested by his wife (Caldwell) intercept - who is identified by a non-electronic intercept as having been associated mostly the DIA during her ~~time~~ for Swanson - these are

- ① the (unnumbered age - Remily, reporter after the event - end 1962?)

② the <sup>Ricardo L. Pinto</sup> Swanson files were stolen from  
 Nov 1963 - but reported only by <sup>and</sup> corporations (B: notes was known at one time as "El Hijo" and eventually, an unnamed  
 removed from the dozen by his government  
 was given a working product in 1964)

Ojts - 289248 - was opened on 9 Dec 1960 under  
the name: Oswald, Lee Harry. Rept'd to  
USSA in October 1959.

Note that in our TS to Roanoke 13 Sept 1964 "before  
developed by CIA on the subject" (See Harry  
Kornblith's MSS Case, Exhibit 27 Oct 3, 1963;  
page 4, sub 3), we stated:

"From all the evidence we have we deduce  
that Oswald visited the Luby's Cafeteria  
in Dallas City in the afternoon of 27 Sept 1963  
and again sometime on 28 September 1963.  
We do not know exactly what his visits consist of.  
There was no door count taken, but we  
cannot exclude this possibility. Two working  
informants from F. Bureau Agent, on phone from  
one point, a house in the Falcon & the  
Jewell Inn, said when they saw Oswald on  
27 Sept he was at least once after his  
initial visit, and this later visit was on  
the afternoon of a day in which the Cuban  
Ambassador telephoned the Soviet Consulate about  
Cuban visa problems. This may well  
have been 28 Sept., but we cannot be  
certain of this conclusion."

Wm. Hearn reported by his book of 22 Nov, 22422, that

Report from Santiago, Chile 23 Nov re Cuban. but neither indicated named. section that was. was "youth & CIA", Extrem right & segregationist to them. This was charge Pedro Martinez #1202. Same time he denied that someone was involved in 71<sup>st</sup> C vicinity that this person only, despite of extreme right & segregationist in Chile. (See Santiago 6153 DD 6714), 23 Nov 63)

NB: There was no hearing recorded on Sov. Inst. on 4 Oct. (See Nogai 7023 - IN 63108). This note relates the North Amer. 82 the 28<sup>th</sup> calls to Ronald identified in call of 1 Oct, but indicated no voice comparison could be done "because last time record prior receipt of second call"

It is clear from context that Nogai sent over to KGB, afternoon and carried 2 sets of six photos each return, to Univ. Inst. on 5/12/64 at Rio. At 3:00 p.m.

According to C.H. 23 April 1935, the camera  
was down in 27 fms for some mechanical  
malfunctions. He stated he and Shaw  
worked personally on each of a subsequent  
photostays. Not certain that was cause  
explicable or indicated. Not a nutty to  
human malfunctions (broking & bending),  
either. Would attempt to bring elements of  
small & connect them on this point. We  
must get sea trials.

Perry! Granted above, why did we not  
get it at the Cuban institutions on  $23^{\circ} 25' E$ ?

{ - Carter Grande - presented a problem. It would not  
work out in a book, so it was left out.  
(- At most, it could be put in a journal or other small  
article, possibly to be placed in the  
longer article, things related under different headings)

Discussions with H. Phillips 28 April = it was  
Cuban camera that was down, it does  
not object to the use of the photo in any way  
but would prefer having the background  
containing figures of the South. Comment &  
proceeds.
